

Focus on What Matters

Discover Your Individual Value of Microsoft Office 365

Do you want to be more productive with the right Office 365 apps? With the COMPAREX Value Inspiration & Experience Workshop you will discover and experience your personal and business value of Office 365.

The Office 365 applications, such as Teams, OneDrive, Skype, Yammer and Delve, offer endless possibilities to communicate and collaborate efficiently. At the same time, this complex diversity is a challenge for many companies and users:

How can you **discover your opportunities** with the various applications?

Why and when should you use a particular app?

How do you keep up with all the **new apps and features?**

Would you like to **use the full potential** of Office 365?

Understand Why, How, and When You Should Use the Different Apps with the

Value Inspiration & Experience Workshop (VIEW) for Office 365

Your Benefits

1. **Discover your individual value of Office 365** as you discover the opportunities of each application through business scenario videos. Get to know how you can reduce costs, work faster, better and more efficiently and increase security by using the different applications.
2. **Work more productively and efficiently** by gaining not only theoretical understanding but also concrete values through practical use cases for your day-to-day business. We want to inspire you to get more out of Office 365.
3. **Adapt best practices for Office 365 applications** which are showcased during the VIEW using the COMPAREX collaboration methodology combined with tips and tricks and hands-on examples.

Feedback of a Finance Executive from a Large European Bank

“This workshop was really great! I have never seen anything like that. Microsoft Teams was already known to us, but there was an “AHA!” moment when I saw the integration of third-party apps, e.g. for project management, collaboration with external partners or teamwork. It was really nice to see real and practical examples and not generic content as usual.”

The workshop is addressed to

- » Management & businessline leaders
- » Business & technical decision makers
- » Ambassadors for innovations
